Project 4: "Integration Competency Center"

Company: **PVH Corp.**

Duration: **January 2022 – present**

Integration Engineer

Responsibilities:

- Design API specifications (RAMLS), Develop the API Integrations among various A2A and B2B applications, support various testing including ITC, deployments through CI/CD tools
- Develop or Enhance custom frameworks (error handling)/utilities based on requirement and ease operational tasks
- Technical spec review, Code review, optimization of existing code base.
- Data conversion using Data weave 2.0
- Leveraged multiple Anypoint connectors – HTTP, SAP, MQ, Salesforce, Workday and well versed in applying security with OAuth 2.0 implementation
- Analysis and Proof of Conducts for various platform/API issues

Project 3: "Manhattan Integration Framework – MuleSoft and webMethods"

Company: **Manhattan Associates**

Duration: **September 2019 – Jan 2022**

Senior Software Engineer

Responsibilities:

- Designed & Developed the Integration among multiple application (Host applications, Internal MA applications – MAO, WM, TLM, MAWM, DOM, Scale) as per the requirement using various webMethods components - webMethods Designer, webMethods Integration Server, Universal Messaging, Terracotta, IS Administration, JDBC Adapter, SAP adapter, EJB adapter, MQ adapter
- Data conversion using Data weave 2.0 in various formats like XML, JSON, CSV etc.
- Used multiple connectors and protocols like Anypoint MQ, File Transfer, HTTP(S), Google Pub Sub etc. for integrating applications.
- Mule ESB 4.3, MuleSoft Anypoint Platform, CARA, PVCS, TFS, Anypoint studio, Data weave 2.0

Project 2: "One Hub – webMethods Integration"

Company: **Atos Global IT Solutions**

Duration: **July 2018 – August 2019**

Responsibilities:

- **Environment** - webMethods Integration Suite 9.12
- This project involved building integration platform for various diverse in-house applications internally as well as between AkzoNobel and its partners
- Using Jenkins and SVN for version control
- Developed web service based, REST based, File polling based, scheduler-based interfaces
- Designing and development of utilities to automate monitoring and support process using Elastic search and Grafana
- Hands on experience on designing, development and testing Integration solutions using various webMethods components

Project 1: "Confidential webMethods Integration"

Company: **Sony India Software Centre**

Duration: **Nov 2015 – Dec 2017**

Responsibilities:

- **Environment** - webMethods Integration Suite 9.7
- This project involved building integration platform for various diverse in-house applications internally as well as between Sony and its partners
- Designed integration scenarios considering the business interactions between the systems using Pub-Sub Model and Point-Point model.
- Worked on administering Integration server, backup/recovery, code management, migration, certificate installation Trust store.
- Hands on experience on various webMethods components
- Involved in the management, analysis, development & testing of EDI solutions involving ANSI X12 & EDIFACT.

ACADEMIC CREDENTIALS

2015	BE (Computer Science) from UVCE with **77%**
2009	Higher Secondary Schooling from Karnataka state board with **90%**

Certifications, Awards and recognition

FY161H   Best performer of the quarter FY161H (In Sony)

FY162H   Best performer of the year 2016 (In Sony)

FY182H   Accolade Champagne for the quarter FY18 H2 (In ATOS)

FY202H   Spirit Award - Rockstar Rookie 2020 (Manhattan Associates)

Certifications

2021 – 2023   MuleSoft Certified Developer (Mule 4)

PERSONAL DOSSIER

Date of Birth: 6th July 1993
Address: G1, Jana Jeeva Regency, 19th cross, 7th main, BTM 2nd Stage, Bangalore-76
Status: Unmarried
